

Amendments to the Specification:

Please replace the paragraph beginning on page 34, line 19 with the following rewritten paragraph:

--Referring now to FIG. 6, still another embodiment 90 of an OPS-laser in accordance with the present invention is depicted. Laser 90 includes two resonators 29 and 31 having a ~~common axial path 37~~ common axial path 35 (indicated in bold line in FIG. 4) over a portion of their total length. Resonator 29 may be defined as a "fundamental resonator" and is terminated at one end thereof by mirror 26 and at the other end thereof by mirror-structure 30 of OPS-structure 32. OPS-structure 32 is mounted and pumped as described above for lasers 20, and 60. Only one pump-light-delivery fiber and associated focusing optics are depicted in FIG. 6, for clarity.--
